

2.2 Installing Device Family Part Pack

The Device Family Part Pack installation handles the PIC32CXBZ2 Device Support.

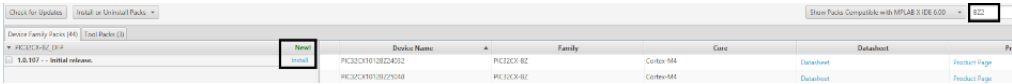

Installing PIC32CXBZ2 DFP

1. In the MPLAB X IDE window, select **Tools** tab and from the drop down menu, select *Packs*.

Figure 2-1. Installing PIC32CXBZ2 DFP

2. Search for "BZ2" in the search box available and select *Install*

For more details on usage of Device Family Part Pack, refer to [Introduction to DFP](#)
